Wetrok BrushBoy

## Wetrok BrushBoy: The clever all-rounder

### The advantages of Wetrok BrushBoy

- Mechanical cleaning of edges, corners, niches and stairs
- Improved performance and ergonomics
- Extremely light and manoeuvrable
- Operating angle individually adjustable
- Can also be used as a hand-held device
- Simple to operate
- Can be used practically anywhere

1 Where neither a scrubber dryer nor a single-disc machine will reach, this handy scrubbing machine from Wetrok will achieve **perfect cleanliness**. Two contra-rotating brushes or pads enable precise control, so edges, corners and niches can be thoroughly cleaned.

2 Thanks to its **low clearance height** of just 95 mm, even dirt under radiators or toilet bowls stands no chance. To tackle stubborn dirt the cleaning solution can be simply and precisely dispensed at the click of a button on the telescopic handle.

3 The Wetrok BrushBoy converts into a **hand-held device** in next to no time: Simply remove the cleaning head from the telescopic handle, attach the ergonomic handgrip and away you go.

4 Strenuous, tiring physical work such as cleaning joints between tiles and shower trays becomes child's play, because manual labour is a thing of the past with the Wetrok BrushBoy. As a result both **performance** and safety are noticeably improved.

5 A clever **system of joints** ensures that the brushes or pads always sit flat on the surface, and the operating angle can be individually adjusted – enabling you to clean every staircase spotlessly, and of course ergonomically.

6 Even **Vertical surfaces** on skirting boards, stair steps etc. are simply, quickly and mechanically cleaned by the smart Wetrok BrushBoy.

7 Thanks to high-quality materials, this all-rounder is extremely sturdy and, at 1.8 kg, **very light**. That means even ceilings and walls can be cleaned effortlessly.

8 **Places which are difficult to access** as often found in the kitchen, can be easily and efficiently cleaned. As needed the cleaning solution is precisely dispensed at the touch of a button.

## Wetrok BrushBoy
