

## Discomatic Samba XT: an investment that pays off

- Excellent cleaning performance over small areas: the Samba XT is as versatile as a mop, but also ensures perfectly hygienic results.
- Efficient use of personnel: with the Samba XT, employees finish their work more quickly and are available to take on other tasks sooner.
- A secure investment thanks to its long service life and high availability: the Samba XT performs even during intensive use and requires only minimal maintenance.

Art. no.	Description
50.018	<b>Discomatic Samba XT</b> incl. brush housing, suction nozzle, integrated charging device, scrubbing brush PP and batteries

#### Accessories/Consumables

62.867	Battery Dryfit 25Ah/12V *
62.810	Squeegee blade front
62.819	Squeegee blade rear
62.929	Squeegee blade rear Para
21.004	Scrubbing brushes Discomatic Samba PP
21.006	Scrubbing brushes Discomatic Samba SN
21.007	Scrubbing brushes Discomatic Samba TY
21.005	Pad drive disk Discomatic Samba
22.301	Poly-Pad yellow
22.302	Poly-Pad red
22.305	Poly-Pad blue
22.303	Poly-Pad green
22.304	Poly-Pad black
52.049	Microsol fibre pad
69.188	Splash guard
51.400	Universal filling hose

\* One machine requires two batteries

#### Technical data

Theoretical performance	1200 m <sup>2</sup> /h
Working width	380 mm
Fresh water tank	15 l
Dirty water tank	23 l
Weight (incl. batteries)	62 kg
Dimensions (l x w x h)	850 x 500 x 1030 mm
Brush pressure	20 – 28,5 kg / 0,30 – 0,41 N/cm <sup>2</sup>
Battery life	1 h
Total power	557 W
Suction turbine power	300 W
Ground clearance	630 mm
Drive type	Self drive
Suction width	460 mm
Tank type	Twin tank

Discomatic Samba XT  
Mobility with character

**wetrok**<sup>®</sup>

## Discomatic Samba XT: an impressive performance in confined spaces

Succeeds where others fail. Comes through in tricky situations. The Wetrok Discomatic Samba XT is also brilliant at cleaning in areas that would otherwise have to be cleaned by hand with a mop: confined spaces and narrow passages. The compact design of the scrubber dryer means that it can be maneuvered effortlessly and tackles every curve with ease. Instead of jolting into life, it powers up gradually before unleashing its full cleaning capacity. It can also detect when it is being used in an area which may cause problems. It is smart as well as feisty.

### **Fascinating: the soft-start principle**

It starts up slowly and reaches its full cleaning capacity within a few seconds: the Samba XT gives its operator the strong feeling of being one hundred percent in control.

### **Ergonomically sophisticated: easily adjustable control panel**

The adjustable control panel of the Samba XT can be adapted to suit the size of the operator by means of a handle. The machine is even easier to maneuver in the vertical position. The instrument panel includes just a few controls that are easy to understand.

### **Safe and comfortable: smart automatic power cut-off**

If the Samba XT is required to navigate difficult areas, such as a drain cover, it reacts automatically. The engine stops, but it is still safe. Once the machine is back on a flat surface, the engine can be quickly restarted.

### **Efficient: water management**

The generously sized fresh water tank, with a volume of 15 liters, enables the Samba XT to cover a large area without needing to be refilled. The dirty water tank can be removed with little effort and easily emptied. The intelligent arrangement of the two tanks ensures that the brush pressure is always evenly distributed.

### **Easy to use: compact design**

It is powerful yet small: thanks to its retractable handle, the Samba XT will fit into any luggage compartment and does not have to be transported by van.

### **Resilient and durable: the design principle**

The Samba XT is designed to handle countless harsh cleaning operations and to have a long service life. All of its mechanical components are made from stainless steel. The aluminum brush housing is also sturdy.
