Wetrok Fomstop

Defoamer

Benefits:

Effective reduction of lathering in spray extraction machines, scrubber-driers, and wet vacuum cleaners.

Application:

For preventing lathering in cleaning machinery.

Properties:

Silicon-based
White colour
Non-perfumed
Contains no solvents

pH value of concentrate:

Important ingredients:

Surfactants, silicon, fatty acids, preservatives

Storage/shelf life:

Store in original container in a cool, well-ventilated place.
Protect from frost. Keep container closed when not in use.
Shelf life (unopened): 24 months.

Recommended dosage (in cold water):

Depends on foaming behaviour
1 l – 2 l / 10 l

Recommended application methods:

Application using spray extraction:

Add solution to recovery tank, mix into waste water via the injector nozzle. Set the injector to the required flow rate.

Usage with scrubber-driers and wet vacuum cleaners:

Add directly to recovery tank.
