# Wetrok Ketovapor Brillant

Industrial alkaline foam cleaner

## Recommended dosage (in cold water):

**Foam cleaning**  
0.3 l – 0.5 l / 10 l

## Benefits:

The gentle alkaline foam cleaner.  
Specially developed for the foodstuffs industry.  
For removing animal and vegetable fats and oils, starches and protein.

## Application:

For maintenance cleaning of washable and alkali-resistant surfaces and equipment (filling and packing plants, tanks, pipework, walls, floors, etc.).

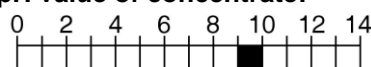

## Please note:

Wetrok Ketovapor Brillant is not suitable for alkali-sensitive surfaces (aluminium, etc.).

## Properties:

High-lather  
Slightly alkaline  
Non-perfumed

## pH value of concentrate:

## Important ingredients:

Surfactants, solvents, preservatives

## Storage/shelf life:

Store in original container in a cool, well-ventilated place.  
Protect from frost. Keep container closed when not in use.  
Shelf life (unopened): 24 months.

## Recommended application methods:

### Foam cleaning

Moisten surface to be cleaned with water thoroughly before use. Then apply the cleaning solution as a foam using a foaming device (using either a high or low-pressure device) starting at the bottom and working to the top. Work the cleaning solution in using an edge cleaning tool and white pad or Microsol fibre pad. Then rinse with water.
