Wetrok Reocid HK7

Highly concentrated sanitary maintenance cleaner

Benefits:

Sanitary maintenance cleaner gentle on materials.
Reduces the buildup of limescale.
Pleasant, long-lasting scent.
Can be foamed by hand.

Application:

For maintenance cleaning of washable and acid-resistant surfaces and equipment (sanitary porcelain, fittings, ceramic tiles, bathrooms, showers, washrooms and WCs, etc.).

Please note:

Wetrok Reocid HK7 is not suitable for acid-sensitive surfaces (limestone, marble, clinker, aluminium, etc.). The exterior of the sanitary fitting must not be warm when cleaning.

Properties:

Slightly acidic
Highly perfumed
High-lather
Dyed red

Recommended dosage (in cold water):

Maintenance cleaning
0.02 l / 10 l

Intermediate cleaning
0.08 l / 10 l

Foaming by hand
Min. 0.06 l / 10 l

pH value of concentrate:

Important ingredients:

Surfactants, solvents, acids, fragrance, colouring

Storage/shelf life:

Store in original container in a cool, well-ventilated place.
Protect from frost. Keep container closed when not in use.
Shelf life (unopened): 24 months.

Recommended application methods:

Wet wiping (by hand)

Wash the dirty surface with cleaning solution, soak if necessary. Rub the surface clean using a suitable handpad or brush. Use a cloth to soak up the waste water. Where necessary, dry the work surface with a clean cloth. Rinse the cleaned surface with clear, cold water and wipe dry as needed.

Damp wiping (by hand)

Apply the cleaning foam in an "X" form on a folded cloth, then damp wipe the surface (using the fold technique). Rinse the cleaned surface with clear, cold water and wipe dry as needed.
