wetrok[®]

Wetrok Eco Calcitin

WC cleaner

Recommended dosage:

Undiluted

Benefits:

Certified environmentally friendly WC cleaner (EU Ecolabel, Nordic Ecolabel, Austrian Ecolabel).

Effective removal of limescale and urine deposits.

Thick consistency - adheres well to vertical surfaces.

Red colouring protects against accidental misuse.

Application:

For cleaning WC bowls and urinals. Can be used on all washable and acid-resistant surfaces.

Please note:

Wetrok Eco Calcitin is not suitable for acid-sensitive surfaces (limestone, marble, enamel, etc.).

Properties:

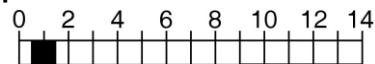

Foaming

Highly acidic

Thick consistency

Non-perfumed

pH value of concentrate:

Important ingredients:

Surfactants, acids, colouring

Storage/shelf life:

Store in original container in a cool, well-ventilated place.

Protect from frost. Keep container closed when not in use.

Do not store in metal containers that may rust.

Shelf life (unopened): 24 months.

Recommended application methods:

Cleaning WCs / urinals

Using the applicator bottle, squirt WC cleaner under the lip of the WC or urinal. Distribute the cleaner around the bowl using the WC brush, allow it to act for a moment and then flush. Remove more serious soiling using the WC brush (wet scrubbing).
