# Wetrok Ketacid Brillant

Acidic industrial foam cleaner

## Recommended dosage (in cold water):

**Foam cleaning**  
0.3 l – 0.5 l / 10 l

## Benefits:

The gentle acidic foam cleaner.  
Specially developed for the foodstuffs industry.  
For removing limescale.

## Application:

For maintenance cleaning of washable and acid-resistant surfaces and equipment (filling and packing plants, tanks, pipework, walls, floors, etc.).

## Please note:

Wetrok Ketacid Brillant is not suitable for acid-sensitive surfaces (aluminium, clinker, etc.).  
Moisten non-acid-resistant grout material thoroughly with water before use.

## Properties:

High-lather  
Highly acidic  
Non-perfumed

## pH value of concentrate:

## Important ingredients:

Surfactants, acid, solvents

## Storage/shelf life:

Store in original container in a cool, well-ventilated place.  
Protect from frost. Keep container closed when not in use.  
Shelf life (unopened): 24 months.

## Recommended application methods:

### Foam cleaning

Moisten surface to be cleaned with water thoroughly before use. Then apply the cleaning solution as a foam using a foaming device (using either a high or low-pressure device) starting at the bottom and working to the top. Work the cleaning solution in using an edge cleaning tool and white pad or Microsol fibre pad. Then rinse with water.
